PROFESSIONAL EXPERIENCE

Retail Assistant – Coles Group; TAS, AU

NOV 2022 – Present

- Delivered consistent customer service in a fast-paced retail environment, resolving customer issues with patience, clear communication, and a people-first approach.
- Developed strong time management, teamwork, and problem-solving skills while managing competing priorities across daily store operations.

IT Support & Systems Analyst - Queensford College; TAS, AU

July 2023 – Oct 2023

- Served as a key point of contact for IT and system support, diagnosing and resolving software, workflow, and usability issues for staff – directly aligned with service desk responsibilities.
- Conducted user testing and system validation on a document management web app, identifying issues and escalating to appropriate stakeholders.
- Developed user manuals and support documentation, improving staff adoption and reducing repeat support requests.
- Created Excel VBA automation scripts to eliminate repetitive administrative tasks and improve team efficiency.
- Participated in Agile processes, contributing to sprint reviews, iterative improvements, and cross-team communication.

IT Support & Web Administrator - Travel With a Cause; TAS, AU

March 2023 – June 2023

- Provided frontline hardware, software, and network technical support to staff – troubleshooting and resolving day-to-day IT issues.
- Maintained and updated WordPress and Wix CMS platforms, ensuring consistent performance and uptime.

- Created onboarding documentation and step-by-step guides to help staff navigate technical processes.
- Applied SEO best practices and managed website analytics tools to support operational reporting.

Founder & Web Developer – spellacademy.com

2024 – Present

Developing and scaling an interactive EdTech platform focused on improving spelling for ESL learners and exam candidates (IELTS, PTE, etc.).

- Built and launched a browser-based learning platform using HTML, CSS, and JavaScript, managing the full product lifecycle from idea to deployment.
- Developed a real-time feedback system for performance tracking, with ongoing iteration based on user testing.
- Implemented SEO strategies and automation workflows to improve discoverability and platform efficiency.
- Managing all technical, operational, and user experience decisions independently – including uptime, performance monitoring, and issue resolution.

Project Manager (University Project) - *UTAS*; TAS, AU

Jan 2022 – Dec 2022

- Led development of a database-driven educational web application (2D game).
- Implemented SQL database integration for managing user data.
- Developed user guides and onboarding documentation.
